MANUAL STRETCH WRAPPERS

STREMA[®] SEMI-AUTOMATIC MACHINES

For simple to demanding
applications.

STREMA[®] Semi-automatic machines

STREtch MAchines directly from the manufacturer.

www.strema.de

Our stretch film wrappers feature the technology of the big ones. Our stretch machines can be customized to suit specific applications. Thanks to our in-house manufacturing, we can produce custom sizes even outside the standard pallet dimensions.

SEMI-AUTOMATIC MACHINES

Our solution for reliable load securing: Manual pallet wrappers with motorized pre-stretch and continuously adjustable wrapping tension. **The carefree series, featuring German brand-name components and exceptional adaptability.**

SAR 18^{SERIES}

Semi-automatic rotary arm stretch wrappers for gentle pallet wrapping. Simple, intuitive operation via a button control panel.

SAR 19^{SERIES}

Semi-automatic rotary arm with continuously adjustable pre-stretching. 4 freely configurable winding programs.

H 1300^{SERIES}

Turntable pallet wrapper for reliable load securing. Easy operation via a push-button control panel.

H 1400^{SERIES}

Turntable pallet wrapper for demanding packaging tasks with variable pre-stretch. 4 freely configurable winding programs.

Push Button Control Panel

Simple machine operation without needed language skills (SAR 18 series, H 1300 series).

SIEMENS Touch Panel

Easy program management and parameter setting via touch panel (SAR 19 series, H 1400 series).
